STATES RELATIONS SERVICE

AGRICULTURAL INSTRUCTION DIVISION

3 LIST OF DEPARTMENT OF AGRICULTURE PUBLICATIONS OF
INTEREST TO TEACHERS OF HOME ECONOMICS//

The following list of publications has been prepared with the design of assisting teachers toward an intelligent selection of Department publications on topics pertaining to the subject of home economics. Teachers should avoid requesting a large list of publications on different topics at one time, or of publications the use of which is to be distributed over a long period of school work. It must be the policy of the Department to limit the distribution of publications to actual present needs as nearly as possible, so that the funds available for purposes of publication can be made to benefit the largest possible number of real users. A limited number of bulletins carefully studied by the teacher or the class or assigned to certain members for individual reports are of much greater service than a hundred forgotten on the shelves at home or in the school library. Copies of any of the publications listed below, except those marked with an asterisk, may be obtained free upon application to the Division of Publications of the U. S. Department of Agriculture as long as the Department's supply lasts. Those marked by an asterisk may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at a nominal price.

Topic.	Title.	Publication.	Price
Dairying.*	Pasteurization of Milk in Butter Making...	Farmers' Bulletin 92	..05
*	Cheese Making on the Farm.....	Farmers' Bulletin 166	..05
*	Bacteria in Cream.....	Farmers' Bulletin 309	..05
